

TONYA J. MANNING
Chief Information Security Officer
Department of Labor

Ms. Tonya J. Manning has more than 19 years of Information Technology (IT) Security experience developing and managing IT Security programs for the federal government. As the Department of Labor's (DOL) Director of Information Assurance and Chief Information Security Officer, she has been recognized as the catalyst for the successful incorporation of significant security measures to safeguard the Department's most critical information systems. Under her leadership, the Department has implemented an Enterprise Risk Management program, as well as, a Continuous Monitoring program, that automates Departmental security monitoring processes and procedures, enabling the Department to proactively prioritize and address cyber security threats and manage risks in a real-time manner. To further enhance its Continuous Monitoring program, the DOL has begun the deployment of additional security monitoring tools provided through its partnership with the Department of Homeland Security and the General Services Administration's Continuous Diagnostic & Mitigation program. Among other enterprise cyber security initiatives, Ms. Manning is also implementing the Department's Identity and Access Management program, enabling the Department to enhance security, increase productivity, and protect the DOL information and information systems.

Ms. Manning's track record of program improvement is based on her philosophy of fostering collaborative working relationships among diverse organizational components. She also promotes the Department's commitment to change as information technology continues to evolve. Relying upon a unique blend of creative and operational strengths, Ms. Manning has achieved inspiring career successes and has been recognized for her commendable efforts. Under her leadership, the DOL's IT Security program was recognized as a Government Computer News Promising Best Practice. Ms. Manning is also the recipient of the prestigious Federal 100 Award and was recognized by the (ISC)² Advisory Board for her significant contributions to the enhancement of government IT security workforce programs.

Ms. Manning received her Bachelor of Science from North Carolina Agricultural and Technical State University. She is a native of North Carolina and resides in Maryland, with her husband and two children.
